I'm a huge fan of a certain "magical kingdom" and all its movies. There's just nothing that can compare to that sense of joy, wonder and euphoria. Maybe someday they'll make a Dragon Ball Land too...

—Toyotarou, 2018

Toyotarou

Toyotarou created the manga adaptation for the *Dragon Ball Z* anime's 2015 film, *Dragon Ball Z: Resurrection F*. He is also the author of the spin-off series *Dragon Ball Heroes: Victory Mission*, which debuted in *V-Jump* in Japan in November 2012.

Akira Toriyama

Renowned worldwide for his playful, innovative storytelling and humorous, distinctive art style, Akira Toriyama burst onto the manga scene in 1980 with the wildly popular *Dr. Slump*. His hit series *Dragon Ball* (published in the U.S. as *Dragon Ball* and *Dragon Ball Z*) ran from 1984 to 1995 in Shueisha's *Weekly Shonen Jump* magazine. He is also known for his design work on video games such as *Dragon Quest*, *Chrono Trigger*, *Tobal No. 1* and *Blue Dragon*. His recent manga works include *COWA!*, *Kajika*, *Sand Land*, *Neko Majin*, *Jaco the Galactic Patrolman* and a children's book, *Toccio the Angel*. He lives with his family in Japan.

STORY THUS FAR

A long, long time ago, Son Goku left on a journey in search of the legendary Dragon Balls—a set of seven balls that, when gathered, would summon the dragon Shenlong to grant any wish. After a great adventure, he collects them all. Later, he becomes the apprentice of Kame-Sen'nin, fights a number of vicious enemies, defeats the great Majin Boo and restores peace on Earth. Some time passes, and then Lord Beerus, the God of Destruction, suddenly awakens and sets out in search of the Super Saiyan God. Goku, by becoming the Super Saiyan God, manages to stop Beerus from destroying the Earth and starts training under him with Vegeta. One day, Trunks appears hoping to save the future. Goku and Vegeta travel to his future, but they soon find themselves struggling against Goku Black and Zamas from the parallel world. Things get even worse when Goku Black and Zamas perform Potara fusion to become the immortal God Zamas. With little hope remaining, Goku ends up asking for help from the Lord of Everything, who erases the entire future world, along with Zamas. After some time, the Lords of Everything decide to host a Tournament of Power, where all losing universes are to be obliterated. Goku's team from Universe 7 has already lost four fighters. Can the remaining six defeat some of the strongest warriors from neighboring universes?!

ORIGINALLY PUBLISHED IN THE *JUMP VICTORY CARNIVAL OFFICIAL* 2018 GUIDEBOOK

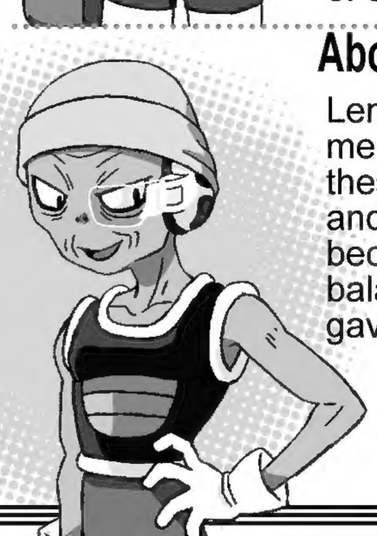
About Broly

Broly first appeared in those ancient animated movies. This was back when I was busy with the serialized manga, so when they asked me to create Broly, I came up with a basic design without knowing a thing about the stories he'd be involved in. In fact, I'd totally forgotten that I designed him. He was apparently a very popular character, so for the new movie, we tried to retain that original image while giving him something of a makeover.

Q.3 Talk a little bit about how the characters in *Dragon Ball Super: Broly* came about.

About Cheelai

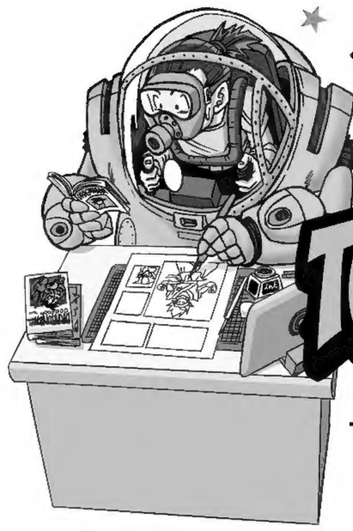
Cheelai and Lemo are non-combatant members of Freeza's army. It sometimes got boring for me how *Dragon Ball* was full of nothing but fighters, and now and then I wished I could feature non-fighters like these guys. That's why these two in particular play important roles. When it came time to come up with their designs and stories, I got really excited and actually put in some effort. I realized I hadn't designed a "cute" female character in a long time, so I set out to make Cheelai the type of cutie pie I'm personally into. (^^)



About Lemo

Lemo is an elderly, longtime member of the army. I actually love these sorts of subdued characters, and I went with a stereotypical alien look because I personally like it. There's a subtle balance to this guy design-wise that I think gave the animators some trouble. Beerus wasn't exactly easy to draw either, so as the original designer it's given me some thing to think about.

Thank you for this, Toriyama Sensei!
-Toyotarou



Toyotarou Asks! TELL US, TORIYAMA SENSEI!!

TOYOTAROU SENSEI ASKS ORIGINAL CREATOR TORIYAMA SENSEI ABOUT THE PROCESS BEHIND CHARACTER DESIGN AND STORY-CRAFTING. THOSE VALUABLE ANSWERS ARE HERE FOR EVERYONE!

Q.1 What's the most important thing when planning out the story?

The most important? That would probably be whether or not each new development can hold the readers' interest. It's key that you leave them wondering what exciting, new thing is about to happen. You also want to keep things novel, with elements that haven't been seen before, but at the same time simple and easy to understand.

Q.2 How do you come up with character designs and names?

First I come up with their basic form. Naturally I go through trial and error to have these characters match the surrounding story elements, but I always prioritize designs that will take people by surprise. Take Freeza, for example. There's often this idea that big equals strong, so I subverted that by making him tiny. His second and third transformations are increasingly outlandish, leading one to think that his final form will follow suit, but then, nope--it's the simplest design yet. With names, I often want the sound of the word itself to match the character's overall image, but just as often I go with surprising names--like Piccolo--that I purposely pick because they don't seem to initially suit the character. When there are a whole bunch of new characters who need names, thinking up unique ones gets hard, so I'll pick a unified theme and do a series of parody names, like how the members of Freeza's army are based on foods you might find in the fridge or freezer. That's an easy approach, so it's one I use quite often.
